

CORPORATE PROFILE

Proton Projects

Machiavelli, the famous Italian philosopher, wrote “There is nothing more difficult to take in hand, more perilous to conduct or more uncertain in its success than to take the lead in the introduction of a new order of things”. This remains true today. Change can be difficult to manage, and even harder to achieve successfully. Organisations must embrace change in order to prosper, and successful organisations understand the importance of effective project management in achieving successful and lasting change.

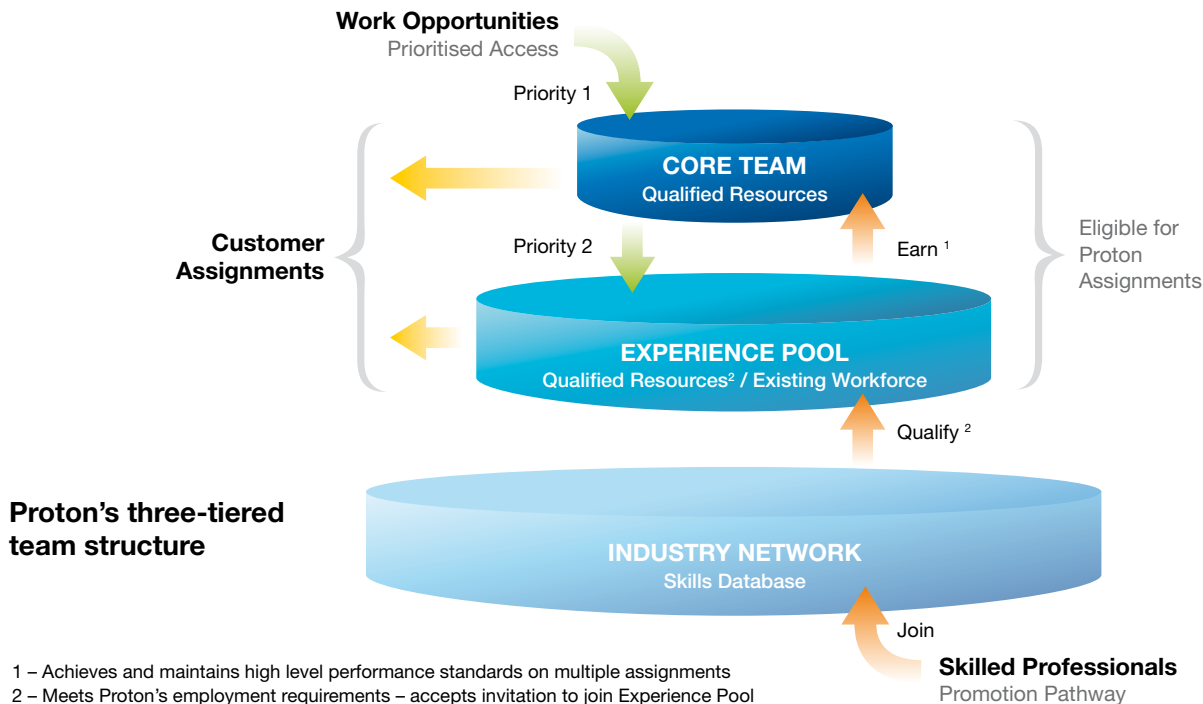

Proton Projects has been servicing corporate Australia with proven project and change management solutions since 1996. As leaders in our field, we provide our clients with specialised education and professional services and access to a vast and talented team of skilled project professionals.

We pride ourselves on staying up to date on the latest global developments in Project and Change Management. We can provide any combination of skills, tools or techniques to help our clients achieve successful project outcomes.

Proton’s services are fully scalable and are designed to suit project and business requirements of any size. Our team have developed long-term relationships with some of Australia’s largest and most respected organisations.

Proton’s unique approach to project and change management blends leading edge techniques with a high quality team, ensuring a cost effective solution to any project or change management need.

Project Resourcing

The pressures of project work can be demanding. Our project specialists are conditioned to the corporate environment and understand the demands of project work.

Proton's clients enjoy access to a pool of project professionals offering a wide range of project skills at competitive market rates. Skills provided include:

- Project Management
- Business & Process Analysis
- Business Impact & Change Management
- Testing and Quality Management
- Training
- Project Office Functions and Administration

Proton employs an innovative three-tiered staffing structure to offer maximum flexibility and value for our clients. The first tier, or Core Team, works across both the Resourcing and Solutions divisions and is responsible for providing consistent and high quality results-focused services for all our clients.

Our second-tier, or 'Experience Pool', consists of handpicked project professionals who are conditioned to the corporate sector and Proton's project methods. This talented and expert pool allows us to draw on the specific skills needed without having to maintain an extensive and costly 'bench'.

Our third-tier provides access to an extensive Industry Network database that helps us to quickly locate and deploy additional skills when required.

All Proton assignments are backed-up by a comprehensive customer support program and direct access to a Relationship Manager who oversees each assignment. The support program provides you with the peace of mind offered by:

- a comprehensive Service Level Agreement
- Progress Reviews
- Status Reports

Proton specialists have access to a comprehensive range of support materials provided via the Proton Intranet. This material can be accessed securely over the web from any customer site. We also provide peer support and development programs to further enhance the value of Proton's resources on any project.

For more information on Proton Projects Resourcing, please email resourcing@protonprojects.com.au or contact your Relationship Manager.

Proton's service level agreements set standards for speed of response to new requirements, candidates' fit, interview strike rate and engagement success rates.

Project Solutions

There are times during the lifecycle of a project when a little help may be needed to ensure your project delivers the results expected of it.

Proton Solutions offers a range of proven tools and techniques designed to improve project execution and delivery, and reduce the risks associated with change. Proton's Solutions include:

- Project Assurance
- Project Initiation
- Project Profiling
- Business Impact and Change Management
- Project Tracking and Reporting
- Risk Management
- Project Recovery
- Enterprise Project Support
- Portfolio Management
- Project Lifecycle Management

These services can be delivered quickly to produce specific outcomes at strategic points in a project.

Our services are fully scalable and will suit project and business requirements of any size. Proton's Solutions services are typically undertaken for a fixed price, and are highly automated to allow us to provide these services at very competitive prices.

For more information on Proton Projects Solutions please email solutions@protonprojects.com.au or contact your Relationship Manager.

Learning and Development

No matter what profession you work in, it's important to stay up to date on current and emerging trends relevant to your industry.

Proton Learning and Development provides state of the art education programs to help Project and Change Management professionals stay on top of their game.

Our courses are developed by industry experts and incorporate the latest local and international trends in project and change management. Each course reflects best practice principles in project management,

change management and business and process analysis. Our project management courses have received certification from the Australian Institute of Project Management.

Proton Learning and Development offers public and private courses that can be customised to meet specific organisational requirements. Other services include competency assessment, post training support, mentoring and coaching, learning support and facilitated workshops.

For more information on Proton Projects Learning and Development programs please email learning@protonprojects.com.au or contact your Relationship Manager.
